

Our greatest resource is you

This is a great time to join our industry, it's an even better time to join CGGVeritas!

Why Join CGGVeritas?

As the world's leading provider of geophysical services, we are part of an industry defined by science and innovation. This is a great time to join CGGVeritas as we drive how our industry's future is shaped.

Our employees are at the heart of our company and define the excellence we provide to our clients. We are committed to attracting and retaining people who enjoy the challenge of applying their science to our business, that of discovering what lies beneath the earth's surface.

Those who excel in our company demonstrate an open and inquisitive mind-set, sound analytical skills and a passion for innovation.

Become a Research Geophysicist

One of our main differentiators is our high investment in research and development.

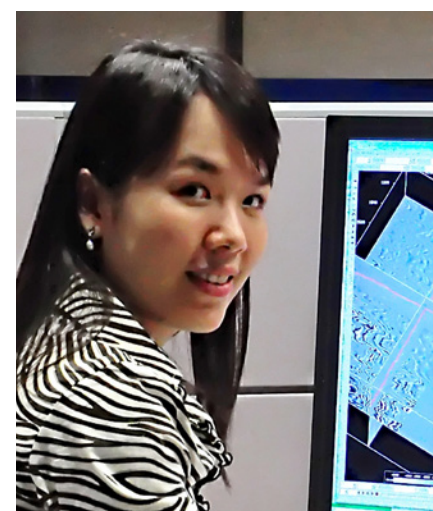

You will:

- Work with teams of world-class researchers and software engineers to design, develop, improve and support cutting-edge imaging technologies
- Develop new, innovative solutions to industry-challenging problems
- Have the opportunity to develop your own knowledge through academic publications, technical presentations, workshops, conferences and seminars

Job requirements:

- Masters or PhD in Geophysics, Electrical Engineering, Computer Science, Applied Mathematics, Physics or other related technical field
- Strong motivation to deal with real data, solve practical problems and deliver high-end technological products
- Excellent coding skills with FORTRAN, C/C++

Employee Testimonial:

Melanie Vu
Geophysicist, Singapore,
Master, Bioengineering – MIT

“ Its strong learning culture and passion for innovation appealed to me. ... Technically, I'd like to become a geophysics guru who inspires my team and nurtures a culture of openness and innovation so that others feel able to turn to me when they encounter problems. ”

Our focus on performance and passion for innovation are powered by people and delivered with integrity.
